

# RECOMMENDATION LETTER

**For: Noah Menduvsky**

Dear Hiring Manager,

I am pleased to write this letter of recommendation for Noah Meduvsky, a remarkable individual who has proven to be a valuable team member during his internship at my organization. As an engineer with experience in different industries with varying degrees of personnel quality, I came away impressed by his drive, initiative, and enthusiasm when it came to tackling every task assigned to him.

Throughout the duration of his internship, Noah demonstrated impressive persistence in seeking tasks and being able to learn how to complete his tasks in both a collaborative effort and with independent research. I was often taken aback (in a good way) by how quickly the work was done and by the willingness to approach me every morning to ask for tasks.

An example of one of the projects he accomplished included communicating with a CAN Bus network by programming a Pi Pico PCB in order to display faults on an e-reader. Though he was initially unfamiliar with CAN bus messages/protocols and e-readers, he was able to learn quickly and integrate all the components into a final product well before his internship tenure was over. In addition to the work ethic shown during his internship, I am aware of the extracurricular work that he performs outside the workplace that further cements his outstanding work ethic.

It is without reservation that I recommend this driven individual any employment opportunity and I trust that he will succeed in whatever capacity is asked of him. I look forward to seeing what success he brings to the organization that employs him.

If you require any further information or would like to discuss this recommendation further, please do not hesitate to contact me at [shane.aprofox@gmail.com](mailto:shane.aprofox@gmail.com). Thank you for considering this letter of recommendation for this exceptional individual.

Sincerely,

Shane Fox
